

STARLITE

Digital Video Network

Large-format video network with real-time programmatic capabilities.

Production Specifications

Pixel Dimensions: 1080w x 1920h

Spot Duration: 8 seconds

1. All files as high-res as possible
2. All logos and typefaces must be in vector format
3. Portrait format orientation for final file
4. Fonts must be provided for InDesign files to be converted to video
5. Source files (Illustrator, Photoshop, InDesign, After Effects) are preferable to PDF or flattened bitmaps
6. Acceptable Formats (JPG, PNG, MP4, MOV, HTML5)

PRODUCTION & DELIVERY:

Files must be received 5 business days prior to campaign being deployed across our digital network. This is to ensure the files will display properly on our system before your campaign begins.
